Course Applied for	Post Graduate Program in Business Analytics		
Certification Applied for			
Course Start Date	16-Sept-2016	Course Finish Date	10-Aug-2017

Please provide in detail your reasons for enrolling for this particular course. What do you want to achieve after completing this course?

I have been working with JP Morgan Chase for past 3 years & have worked in technology roles for more than 11.6 year now in Java/J2ee technologies. Over the course of my career, I have seized opportunities to work in diverse profiles & technologies.

I have always tried to incorporate prevalent technology trends & developments into my learning. Of late, I got interested in Big Data Insights; I decided to pursue NPTEL online free courses from IIT Chennai in Data Science Specialization. This course has given great information about basic data science. I thoroughly enjoyed the course. But it also made me realize that I lack functional & business knowledge necessary for a great analytics career. So, I enrolled myself into Post Graduate Program in Business Analytics (PGPBA) from Great Lakes Institute of Management, Chennai.

The program curriculum not only covers leading big data & analytics technologies, such as Hadoop, SAS, R Programming & Tableau, but also includes business finance, marketing & customer relationship management, supply chain & operations & various statistical methods for decision making. I believe this course will augment my learning and add value to my career.

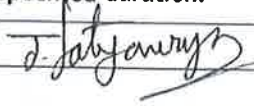

Post completion, I would like to work in positions where I can transform available data into business insights in JP Morgan. Moreover, It would also help me to align with JPMC's vision of harnessing data to provide business insight. Be it JP Morgan Institute or JP Morgan Intelligent Solutions or various analytics initiatives taken by different line of businesses.

Declaration :

a) I have read and understood all the terms and conditions under the TAP Guidelines and I agree to adhere to the same.

b) I also undertake to repay the entire reimbursed payment made to me by the firm, in case I leave the services of the firm anytime during the payment window/s/ not able to complete the course on the specified duration (fail to clear any semester).

(c) I also undertake to complete the course in the first attempt and within the specified duration.
